1. (C-SS) Statistics Viewer: 018
 Session date: 6 FEB 68
 Mode of operation: 604.0

2. (S-SS) CUEING: "Access and describe the leaders of state associated with coordinates 681001/187811. Describe their physical, philosophical and religious traits.

3. (S-SS) SESSION CONDITIONS: I hurt my back two days before the session, and have been taking pain pills. Session was performed with a back ache and with pain killer in my system.

4. (S-SS) RESULTS:

a. The target area appears to be a congestion of close buildings which appear 2-4 stories tall and are lightly colored. The area seems to be bathed in very clear sunlight, and the people appear to be wearing all very white or light colored clothing. There was a repeated impression of being in a very tall structure, looking out and down on the surrounding city. Along with this impression, there was a repeated visual impression of a pastel-colored (baby blue) building nearby.

b. The "leaders of state" cueing brought about three distinct people/groups of people. They are:

1) One group of impressions center around an old man who is lying on his back (AOL: in bed). He appears to be surrounded by very white linen and has on white clothing, except for a pale green (AOL: vest). There is a constant impression of many people standing around him, looking at him.

2) Another group of impressions center around a

person who, I believe, is female. He/she is looking out of a high window at what appears to be the same city the old man is in. She is feeling very satisfied and "philosophical" about things. He/she sees the present time of stasis as being merely preparation for the progress to come. He/she is very confident, and is very pleased with the progression of events as they are. This person also gives many impressions of being very tall and slender. There is also a repeated (but very slight) impression of this person as balding or having little hair on his/her head, except for a (AOL# pony tail/top knot with hair hanging from it/etc).

3) Another small group of impressions deal with what appears to be an American. He has hair greying on the sides, and is seen as being lying on a beach at the present time.
